

# Clean cut

**ENDURO SHIELD**  
improves glass and glazed surfaces by making them water repellent plus stain, graffiti and scratch resistant.

Expert glaziers Cooling Brothers work under the company motto “where beauty meets precision”.

Cooling Brothers regularly assist architects and builders with custom designs for specific requirements in the planning stages of large projects.

Such collaborations have won the company gold housing awards, and assisted in the improvement of architectural glass applications and achieving a 5 Star Energy rating.

The glass lap pool wall seen here is one such example. Cooling Brothers worked with Exclusive Pools, architect Ralph Drexel and engineers at Scott Smaley Partners to achieve this multi-award winning result. It is believed to be a first, with 16m of this 20m lap pool wall totally comprised of glass.

Cooling Brothers specialise in the frameless glass

market, using new innovative technology combined with realistic building guidelines.

Through this the company has managed to achieve larger areas of frameless glass than ever before, which is great news for homeowners because it's helping achieve uninterrupted views.

The toughened laminated products on hand at Cooling Brothers will also help achieve uninterrupted views, allowing architects and designers use of frameless top edges on balustrading.

Cooling Brothers is doing its part to assist in achieving 5 star energy ratings in new homes.

The new product range of Sunergy (Sun and Energy Control Glass) will allow for the highest ever level of temperature comfort and energy efficiency.

The range on offer at Cooling Brothers includes shopfronts, partitioning, commercial glazing, balustrading, wind breaks, pool fencing, frameless shower screens, canopy glazing, swimming pool windows and walls and custom designed projects.

Products and services such as the pool fencing and balustrades feature long lasting finishes that ensure minimum maintenance and come in quality stainless steel.

They're custom-built to suit individual styles and complement the area being installed, allowing maximum visibility with minimum disruption to the view or pool area.

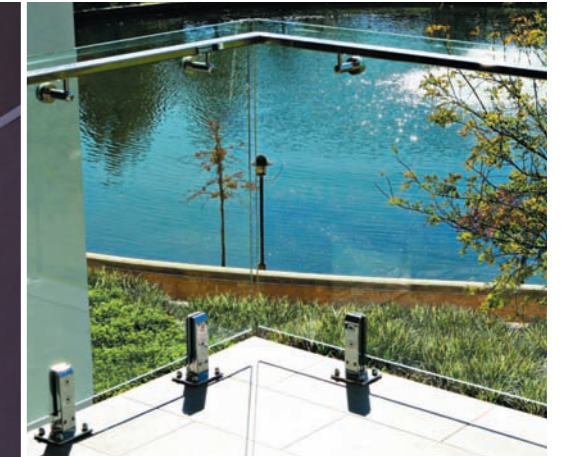

With its diverse range and extended knowledge of the field, Cooling Brothers can make any job and budget achievable.

**BALUSTRADE AND POOL FENCING**  
frameless or semi-frameless, as required.

**ARCHITECTURAL GLASS**  
projects and applications.

## KEY PRODUCTS

- SPECIALISED GLAZING** such as glass canopies.
- GLASS STAX WALLS**, great for full height application and seamless indoor/outdoor flow.
- PARTITIONING**, especially useful for clear vision with added privacy.
- COLOURED GLASS SPLASHBACKS**, a terrific alternative to tiles in the kitchen and bathroom.

## ABOUT COOLING BROTHERS

Cooling Brothers has been successfully trading for more than 40 years and is at the market's forefront for quality, service and expert knowledge.

A philosophy of continuous improvement means it is able to meet the needs and expectations of customers through strong customer service and the supply of products to an assured level of quality.

Centrally located in Perth, Cooling Brothers offers a metro-wide service and completes all projects large or small promptly and efficiently.

Services are not limited to Perth, however, as Cooling Brothers has successfully provided services throughout Australia.

As a leading supplier in all areas of glazing, all work is manufactured in the Belmont factory and fitted on-site by experienced tradesmen.

By using handpicked tradesmen rather than sub-contractors, a high standard of quality is maintained. The company is an HIA member and a partner of the green smart initiative.
