

# OCEAN BREAK

## OCEAN BREAK

Australian's spend a lot of time on the beach; in fact 85% of Australian's choose to live within an hour's drive of the coast. Cooling Brothers recognise the Australian love for the ocean and understand the value of customer satisfaction and the major contribution to this satisfaction that is made by the supply of products to a high level of excellence and aesthetic qualities. Thus we are proud to introduce the OCEAN **BREAK** Marina Concept.

The OCEAN **BREAK** Marina Concept is a definitive design for both patrons and cliental, providing protection, comfort and an assured level of quality. OCEAN **BREAK** is specifically designed and engineered to achieve high levels of weather protection using high marine grade stainless steel and architectural glass custom made to suit the environment. All of which is accomplished without obstructing the view.

If you're looking to enhance optimum levels of comfort and safety in a visually pleasing but effectual product then the OCEAN **BREAK** Marina Concept is the ultimate answer. It's striking appearance and enduring form makes it another *Cooling Brothers* product, **Where Beauty Meets Precision.**
